

YUCCA VALLEY GENERAL PLAN UPDATE 2035

EAST SIDE WORKSHOP

May 4 • Fri • 3 -5:30 pm • Yucca Valley Community Center

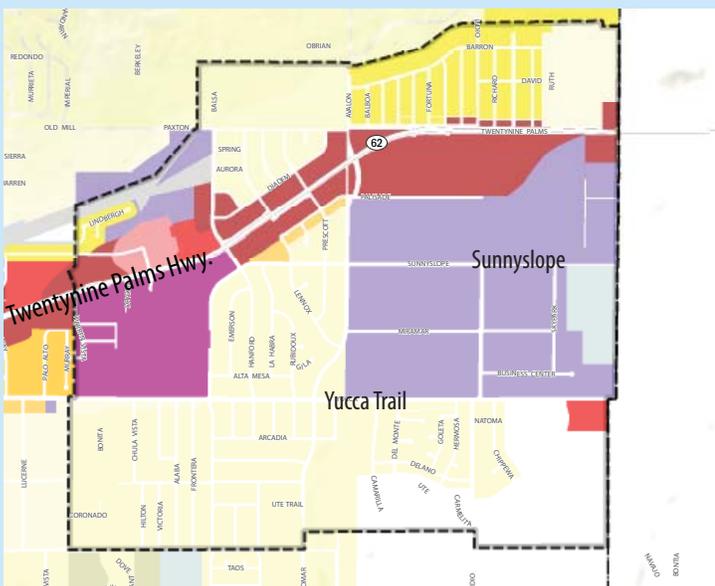

HAVE YOU JOINED THE DISCUSSION?

Three focus areas along SR 62 — the **West Side**, **Mid-Town**, and **East Side**— will be receiving special attention during the General Plan update. These are areas where change is anticipated in the Town over the next 25 years and therefore require specialized guidance. Planners and designers will be on hand at the workshops to help Town staff and the public generate conceptual land use alternatives for each Focus Area that could be included in the Land Use Plan. All property owners, residents and businesses are invited to these interactive public workshops to discuss, design and plan the future development of each area.

WE WANT TO KNOW

- What should development along SR 62 look like in the future for each area?
- What commercial and mixed use (a combination of residential and commercial land uses) would create a prosperous SR 62 corridor?
- What streetscape improvements should be made (and where) to increase pedestrian circulation and overall appearance of the corridor?

EAST SIDE FOCUS AREA
