Chapter 9.60 Permit Procedures – General Provisions

Sections:

9.60.010 – Purpose

9.60.020 – Types of Procedures

9.60.030 – Review Authority for Land Use and Zoning Decisions

9.60.010 – Purpose

This Chapter establishes the procedures to process land use entitlements and development proposals in any land use zoning district.

9.60.020 – Types of Procedures

This Development Code utilizes the following three basic procedures to review all types of applications:

A. Public Hearing

1. Formal open forum for public review. Public hearing procedures are distinguished by a formal open forum for public review of a proposal. During the course of the public hearing, the applicable review authority invites public testimony for and against the land use proposal, reviews evidence and then renders its decision in compliance with Chapter 9.63.030 (Public Hearings). A public hearing may be conducted before the Council, the Commission, or the Director.
2. Review evidence and state relative positions. Public hearing procedures shall be used to give all interested parties an opportunity to review the evidence and to state their relative positions in a common public forum before the applicable review authority.

B. Staff Review with Notice

1. Based upon specific findings or conditions. Staff review with notice procedures are distinguished by land use decisions that are based upon specific findings or conditions that limit the discretion of the applicable review authority.
2. Rendering of a decision with notice. Staff review with notice procedures shall provide written or published notice given to affected and interested parties followed by a decision by the applicable review authority. The notice shall be designed to ensure that all interested parties are aware of the pending decision and are given a chance to comment before the review authority renders its decision.

3. Such notice will be given at least fifteen (15) days prior to the scheduled hearing date. If no response has been received by the Town five (5) days prior to the scheduled hearing date and the applicant has no objections to the conditions of approval, the Community Development Director may elect not to hold a formal hearing.

C. Staff Review without Notice

1. Decisions based upon adopted standards. Staff review without notice procedures are distinguished by land use decisions made by the applicable review authority based upon standards that have been adopted by the Town as law or as policy.
2. Rendering of a decision without notice. Staff review without notice procedures shall be used when sufficient standards have been adopted by the Commission or the Council to allow the applicable review authority to render a decision without giving notice to surrounding property owners and other parties.

9.60.030 – Review Authority for Land Use and Zoning Decisions

Table 4.1 (Review Authority) identifies the Town official or authority responsible for reviewing and making initial decisions on each type of application or land use entitlement required by this Development Code, the nature of the initial decision (i.e. decision or recommend), and the nature of the response of the subsequent review authority.

Table 4.1 Notes:

- (1) The Director may defer action and refer any permit or approval application to the Commission for final determination.
- (2) All decisions of the Director are appealable to Commission, and then to the Council, in compliance with Chapter 9.81 (Appeals), except for those decisions addressed in Note (3).
- (3) The Commission may refer consideration of an appeal to the Council, except for those decisions involving only a Variance, determination as to the completeness of an application, the determination to approve or deny a Home Occupation Permit, an Accessory Wind Energy Permit, a Subdivision Sign Location Plan, or the requirement for preparation of an Environmental Impact Report (EIR). In these instances the Commission’s decision shall be the final and conclusive decision. The Council will not accept nor consider an appeal of these Commission decisions.
- (4) All decisions of the Council are final.
- (5) “Recommend” means that the review authority makes a recommendation to a higher review authority; “Appeal” means that the review authority may consider and decide upon appeals to the decision of an earlier review authority, in compliance with Chapter 9.81(Appeals).
- (6) Concurrent processing. Multiple applications for the same project shall be processed concurrently, and shall be reviewed, and approved or disapproved by the highest review authority designated by this Development Code for any of the required applications (e.g., a project with applications for both a Zoning Map amendment and a Conditional Use Permit shall have both applications decided by the Council, instead of the Commission acting on the Conditional Use Permit as otherwise provided by Table 4.1 [Review Authority]).

9.60.040 – Referral to Next Higher Review Authority.

A Review Authority may refer any application to the next succeeding Review Authority, based upon the following criteria.

1. Impact upon public services and facilities greater than typical for the type of project proposed;
2. Impact upon surrounding properties greater than typical for the type of project proposed;
3. Floor or site square footage greater than typically found in the type of project;
4. Intensity of use greater than typically found in the type of projects;
5. Operating characteristics not typical of the type of project proposed;
6. Other factors including but not limited to public opposition to development of the project;
7. The need for Town interpretation of the General Plan and/or Development Code as related to the project.

Chapter 9.61 Application Processing Procedures

Sections:

- 9.61.010 – Purpose
- 9.61.020 – Applications for Land Use Decisions
- 9.61.030 – Development Review Committee
- 9.61.040 – Environmental Review
- 9.61.050 – Multiple Permit Applications
- 9.61.060 – Pre-Application Review
- 9.61.070 – Notice of Pending land Use Decisions
- 9.61.080 – Conditions of Approval
- 9.61.090 – Post-Decision Notice

9.61.010 – Purpose

This Chapter establishes the application requirements and noticing provisions necessary to process development proposals in any land use zoning district.

9.61.020 – Applications for Land Use Decisions

- A. **Complete Application Required.** Any application for a permit or entitlement pursuant to this Code must be accepted as complete for processing in order to initiate the official review process. All required materials, information and fees as required by the Director shall be provided by the applicant before the application is deemed complete for processing.
- B. **Determination of Completeness.** The Director, or his designee, shall determine in writing the completeness of the application and transmit this determination to the applicant within the time limits and in a form and content to be consistent with the types of project applications established by applicable state law and Town regulations.
- C. **Time Period for Determining Completeness.** The statutory time period of thirty (30) days established by state law determining completeness shall begin the day the application is made and date stamped. Formal processing of any application pursuant to this Code shall commence upon the date the application is accepted as complete, as provided in the state law regarding review and approval of development projects.
- D. **Abandonment of Application**
 - 1. An application for permits or approvals issued in compliance with the Development Code shall be deemed to have been abandoned when information and/or fees have been requested to complete and application and this information and/or fees have not been received by the Planning Division within ninety (90) calendar days.

2. The Director shall notify the applicant by mail of the abandonment. The applicant may provide a written explanation of the delay, stating the date by which the further application material and, when required, further fees will be submitted. If the Director finds that special circumstances exist and that unusual hardship to the applicant would result from deeming the application abandoned, the Director may appropriately extend the period during which the required material must be submitted. If the required material has not been submitted by the new date, and if the Director has not further extended the allowable period for submitting it, the application shall be deemed abandoned without further notification. A notice of abandonment shall thereafter be mailed to the applicant and a copy placed in the applicant's file.

E. Additional Information. Notwithstanding any procedures established in this section for determination of completeness, the Director may request the applicant to submit additional information in the course of processing the application if such information could not be anticipated as part of the original application. Such a request to clarify, amplify, correct or otherwise supplement submitted information shall not invalidate the original determination that the application was complete at the time the determination was originally made. The Director may request any additional information needed to prepare adequate environmental documentation in compliance with the California Environmental Quality Act (CEQA) and applicable guidelines.

F. New Application Following Denial. Following the denial of an application for any land use or policy application, no application for the same or substantially the same use or project as determined by the Director shall be filed within one year from the effective date of the denial. This provision shall not apply in the case of an application that is denied without prejudice or where otherwise permitted to be filed by a vote of at least 2/3 of the approving authority.

9.61.030 – Development Review Committee

A. Evaluation of proposals by the Development Review Committee (DRC). Development review procedures include evaluation of proposals at a scheduled meeting of the DRC.

B. Consideration of design and proposed conditions. The DRC meeting allows informal discussions between the applicant, Town staff, and others regarding the design and proposed conditions for a given proposal. The DRC provides a recommendation to the applicable review authority.

9.61.040 – Environmental Review

A. Applications subject to CEQA. All land use applications that are subject to the California Environmental Quality Act (CEQA) shall be reviewed by the Department in compliance with the Town environmental review guidelines.

B. Environmental findings required. Before taking an action to approve a land use application that is subject to CEQA, the Planning Agency shall make one or more environmental findings. The

environmental finding(s) is required in addition to the findings specified in this Development Code for each application type.

9.61.050 – Multiple Permit Applications

When more than one land use decision is required for a single project, all applications shall be filed concurrently.

9.61.060 – Pre-Application Review

When the complexity of a land use application warrants, the Director may require that the applicant submit materials and attend necessary conferences or hearings to conduct a preliminary review of a development proposal before the acceptance of the application.

9.61.070 – Notice of Pending land Use Decisions

A. Public hearing or staff review with notice procedures. Upon receipt of a request for a land use decision that utilizes the public hearing or staff review with notice procedures, the applicable review authority shall give notice specifying the time and place for the decision at least 10 calendar days before the date of the scheduled land use approval/denial by the following applicable methods:

1. Notice shall be published once in a newspaper of general circulation in the respective community of the proposal for the following land use decisions using the public hearing procedure:
 - a. Amendments to the text of the General Plan or a specific plan.
 - b. Development Code amendments.
 - c. General Plan map amendments.
 - d. Subdivisions, where a tentative and final map are required.
 - e. Conditional Use Permit and amendments
 - f. Specific Plan and amendments
 - g. Planned Development and amendments
 - h. Variance
2. Notice shall be given by first class mail to any person who has filed a written request for a specific application.

3. Notice shall be given by first class mail or delivery to all surrounding property owners within 300 feet of the exterior boundaries of the subject site for land use decisions using the public hearing or staff review with notice procedures.
 4. Notice shall also be given, as required by Government Code Section 66451.3, in the case of a conversion of residential real property to a community apartment project, condominium project, or stock cooperative.
 5. Notice may be given in any other manner as is deemed necessary or desirable by the Director.
- B. One-eighth page optional notice.** A one-eighth page legal display advertisement in a newspaper of general circulation may be substituted for individual property owner notice whenever the individual notice would require notification of more than 1,000 property owners.
- C. Ownership and addresses of properties.** Ownership and addresses of contiguous and surrounding properties shall be determined from the latest equalized tax assessment role or from other records of the County Assessor or County Tax Collector, whichever contains more recent information.
- D. Continued hearings.** During the public hearing, items that are continued by the review authority to a specific date shall not be re-noticed unless specifically requested by the review authority.

9.61.080 – Conditions of Approval

In approving an application for a land use decision, the review authority may establish reasonable conditions to its approval that are found to be necessary to protect the public health, safety, and general welfare that are consistent with the General Plan and this Development Code

9.61.090 – Post-Decision Notice

- A. Provision of notice.** Within 10 calendar days of a final decision on an application for a permit or other approval required by this Development Code, the Town shall provide notice of its final action to the applicant and to any person(s) who specifically requested notice of the Town's final action and has provided a self-addressed stamped envelope.
- B. Contents of notice.** The notice shall contain the final decision by the review authority.

The Planning Commission is not required to hold a hearing on such modification, and their failure to respond to a Council referral within forty-five (45) days shall constitute their (the Commission’s) recommendation for approval.

9.63.060 – Required Findings

- 9.65.100 – Modification, Termination or Suspension

9.65.010 – Purpose, Authority and Findings

This Chapter establishes procedures and requirements for consideration of development agreements. The purpose of this Chapter is to recognize that major, multi-phased development projects may require the developer to commit a substantial investment in “up front” costs and that some assurances that changing regulations will not adversely affect the entitlements of the project may be necessary to justify the “up front” costs. The purpose of this Chapter is also to recognize that the Town has an interest in assuring that large scale, long-term projects are implemented as approved. Development agreements may provide the mechanism to provide needed stability for such projects. These provisions are adopted under the authority of Title 7, Division 1, Chapter 4, Article 2.5 of the California Government Code (commencing at Section 65864). The findings and purposes as set forth in California Government Code Section 65865.

- A. Assurances to the applicant.** A development agreement is intended to provide assurance to the applicant that an approved project may proceed subject to the policies, regulations, rules, and conditions of approval applicable to the project at the time of approval, regardless of any changes to town policies, regulations, and rules after project approval.
- B. Assurances to the Town.** In return, the Town is provided assurance that the project would further important town goals and policies which have been officially recognized by the Council, and provide the Town with significant, tangible benefits beyond those that may be required by the Town through normal project conditions of approval.

9.65.020 – Qualifications of Applicant

Only a qualified applicant may file an application to enter into a development agreement, as determined at the sole discretion of the town. A qualified applicant is a person who has legal or equitable interest in the

real property which is the subject of the development agreement. An applicant shall submit written proof of interest in the real property or of the authority of any agent to act for the applicant.

9.65.030 – Application Submittal Requirements

Applications for Development Agreements shall be filed on a form prescribed by the Planning Division and shall contain such information and reports as may be required by the Town in order to render a decision consistent with the purpose and findings required by this Chapter.

9.65.040 – Application Fee

The application shall be accompanied by a fee established by resolution of the Town Council to cover the cost of handling and processing the application as prescribed in this Chapter.

9.65.050 – Investigation and Report

The Director shall cause an analysis of each application for a Development Agreement to be made. The level of detail of the analysis shall be appropriate to the type of project proposed and the needs of the Planning Commission and Town Council. The analysis shall examine the application's consistency with the content, intent and purpose of the General Plan, the Development Code, and any other applicable Town standards or policies. To insure effective implementation of General Plan policies and the provisions of this Code, applications may be reviewed by the Development Review Committee prior to consideration by the Planning Commission. As a result of the analysis, the Director shall cause a report to be completed including findings regarding the public health, safety and welfare.

9.65.060 – Action by Review Authorities

- A. **Notice of Hearing.** A public hearing for an application for a development agreement shall be held by the Commission and the Council. The Notice of Intention to consider a development agreement by the Commission and Council is governed by California Government Code Sections 65090 and 65091 and shall be consistent with Chapter 9.86 of this Code, *Public Notices and Hearings*.
- B. **Recommendation by Planning Commission.** The Commission shall make its recommendation in writing to the Council. The recommendation shall include the Commission's determination of whether the development agreement proposed is:
 - 1. Consistent with the objectives, policies, land uses and programs specified in the General Plan and any applicable specific plan;
 - 2. Compatible with the uses authorized in, and the regulations prescribed for, the land use district in which the real property is located; and
 - 3. Beneficial to the public health, safety, and welfare.

C. Decision of the Town Council

1. The Council may approve, modify, or deny the recommendation of the Commission. It may, but need not, refer matters not previously considered by the Commission back to the Commission for report and recommendation. The Commission may, but need not, hold a public hearing on matters referred back to it by the council. Failure of the Commission to respond to a Council referral within forty-five (45) days shall constitute their (the Planning Commission's) recommendation for approval.
2. The Council may not approve the development agreement unless it finds that the provisions of the agreement are: (1) consistent with the General Plan or any applicable specific plan; (2) compatible with the uses authorized in, and the regulations prescribed for the land use district in which the real property is located; and (3) in conformity with good land use planning; and (4) not detrimental to the health, safety and welfare.
3. Consideration for and action upon development agreements shall be consistent with and in accordance with applicable State law.

- D. Approval of Development Agreements.** If the Council approves a development agreement, it shall do so by the adoption of an ordinance. Such approval is a legislative act and such ordinance is subject to referendum.

9.65.070 – Amendment or Cancellation of Development Agreements

- A. Either party (or successors in interest thereof) may initiate an amendment to, or cancellation in whole or in part of, a previously executed development agreement.
- B. The procedure for initiating and adopting an amendment to, or a cancellation in whole or in part of, the development agreement is the same as the procedure for entering into the original agreement.
- C. A development agreement, after notice and public hearing, may be amended or canceled in whole or in part by mutual consent of the parties to the development agreement or their successors in interest.
- D. Amendment of a development agreement is a legislative act and must be approved by ordinance, which ordinance is subject to referendum.

9.65.080 – Recordation

- A. The applicant shall present to the Director the written consent to the development agreement of all parties having record ownership interest in the real property which is the subject of the development agreement, prior to the approval of the agreement by the Town Council.

- B. No later than ten (10) days after the town enters into the development agreement, the Town Clerk shall record with the County Recorder a copy of the development agreement which shall describe the land subject thereto.
- C. If the parties to the agreement (or their successors in interest) amend or cancel the agreement as provided in California Government Code Section 65868, or if the Council terminates, or modifies the agreement as provided in Government Code Section 65865.1, the Town Clerk shall record the appropriate document with the County Recorder in the manner prescribed by State law.

9.65.090 – Periodic Review

- A. The Town shall review the development agreement every twelve (12) months from the date the agreement is entered into through a public hearing by the Planning Commission and Town Council.
- B. The Director shall initiate the review proceeding by giving notice as provided by Chapter 9.86 of this Code, *Public Notices and Hearings*, that the Town intends to undertake a periodic review of the development agreement and shall prepare a staff report and recommendation.
- C. The Director shall determine whether the property owner has demonstrated good faith compliance with the terms and conditions of the development agreement.
- D. If the Director finds and determines on the basis of substantial evidence that the property owner has complied in good faith with all terms and conditions of the agreement during the period of review, the review for that period is concluded.
- E. If the Director finds and determines on the basis of substantial evidence that the property owner has not complied in good faith with any one or more of the terms or conditions of the development agreement during the period under review:
 - 1. The Town may initiate proceedings to modify or terminate the agreement or undertake other enforcement action as deemed appropriate;
 - 2. Such periodic review will end when all the terms and conditions have been completed as found and determine necessary by the Commission and Council after public hearings.

9.65.100 – Modification, Termination or Suspension

- A. A development agreement or portions thereof may be modified or terminated upon a finding of noncompliance under subsection 9.65.100 of this Chapter. In the event that State or Federal laws enacted after a development agreement has been entered into, prevent or preclude compliance with one or more provisions of the development agreement, such provisions of the agreements shall be modified or suspended as deemed necessary by the Council, on a recommendation by the Commission, to enforce compliance by the property owner with such subsequently enacted State or Federal laws or regulations. If such proceedings are initiated, notice shall be given as prescribed by this Code and applicable State law.

- B.** At the time and place set for the public hearing on modification, suspension or termination of the development agreement, the property owner and the public shall be given an opportunity to be heard. The finding of noncompliance under subsection 9.65.060(C), *Decision of the Town Council*, of this Chapter shall be deemed final and not subject to reconsideration at this hearing. The issue at this hearing shall be whether termination, suspension or modification is warranted, and if so, in what respects. The Council may impose those conditions to the action it takes as it deems to be in the best interest of the Town.

9.70.040 – Concurrent Subdivision Applications

Applications for a Planned Development shall not constitute an application for subdivision. If a subdivision of land is proposed in conjunction with a Planned Development project, separate application, review and findings shall be made in accordance with the provisions of this Code.

In the event a tentative subdivision map application is concurrently filed with a Planned Development application, expiration of an approved or conditionally approved Planned Development site plan shall terminate all proceedings of any associated land use application. No final subdivision map or parcel map of all or any portion of the real property included within such a Planned Development site plan shall be filed for record without first processing a new Planned Development site plan.

9.70.050 – Development Plans

A detailed site plan or development plan shall be submitted with all Planned Development proposals. All such development plans shall contain sufficient detail to depict the manner in which the proposed development complies with the provisions of this article and that of Division 8 of this Title.

Planned Development requests for mixed use projects or projects with more than five hundred (500) dwelling units may be submitted in two stages. The first stage shall be referred to as a Preliminary

Development Plan and the second stage shall be referred to as a Final Development Plan. Preliminary Development Plans and Final Development Plans are defined as follows:

- A. Preliminary Development Plan.** A preliminary Development Plan (PDP) functions as a development suitability analysis and a comprehensive plan of the proposed developments. The PDP:
1. Identifies and quantifies the constraints and opportunities for development as follows:
 - a. The physical characteristics of the site,
 - b. Available public services and facilities,
 - c. The capacity of the existing circulation system, and
 - d. The existing and planned land use of adjacent properties
 2. Establishes a list of specific limits, parameters and planning objectives to guide development based on the identified development constraints and opportunities.
 3. Describes one or more potential development schemes derived from the limits, parameters and planning objectives controlling the development. Each proposed development scheme shall describe:
 - a. Proposed land uses and approximate distribution of such land uses,
 - b. Proposed density of residential uses,
 - c. Estimated population,
 - d. Estimated service demands,
 - e. The anticipated impact on the existing circulation system,
 - f. The anticipated impact on the adjacent properties,
 - g. The relationship of the plan to the various elements of the General Plan, and
 - h. The anticipated types of uses.
 4. Sets forth in the form of a written text, maps and/or diagrams, a detailed plan of development based upon the application of the established limits, parameters and planning objectives controlling development. Said plan shall describe in detail the following:
 - a. Proposed land uses and building types, the functional arrangement of such uses and building types and relationship to size, site grading, circulation, lighting, paving,

parking, screening, setbacks, recreation and open space areas, and adjacent properties,

- b. How the established limits, parameters and planning objectives have been adhered to,
- c. The level of public services and facilities required by the proposed development and the program for providing, operating and maintaining such services and facilities,
- d. Access and circulation requirements,
- e. Known man-made and natural hazards and methods for mitigation of such hazards,
- f. Significant natural features and areas to be retained for common open space, and provisions for the preservation, conservation, utilization and maintenance of such areas, and
- g. How the plan conforms to the objectives of the General Plan and the Planned Development provisions of this Code.

B. Final Development Plan. The Final Development Plan is a detailed site plan which sets forth the location and dimensions of all uses and structures in sufficient detail to permit recordation and preparation of construction drawings.

The Final Development Plan shall comply with all approved Preliminary Development Plans. If no such Preliminary Development Plan has been approved, the Final Development Plan shall also meet the requirements for Preliminary Development Plans for the project site.

C. Application Procedures for Staged Development:

1. An applicant may file the Preliminary with the Final Development Plan, with the consent of the Director.
2. An application for a Preliminary Development Plan shall encompass all the land included within the Planned Development. A Final Development Plan may be for a portion of the land included within the Planned Development or a phase thereof, provided that:
 - a. Each phase shall function as a complete and separate development from the remaining phases, and
 - b. Any densities proposed or open space areas provided within the subject phase shall not result from a transfer of density from adjoining phases.

D. Pre-application Conference. Prior to the formal submission of a Planned Development application, the applicant shall meet with the Development Review Committee in order to acquaint the applicant with the procedural requirements of the Planned Development provisions of this Code and to discuss the general acceptability of the plan and its compatibility with applicable

policies, issues and development regulations. The pre-application conference shall be required for mixed use, staged development plans only.

- E. Conformance of Plans.** Each Final Development Plan shall substantially conform to the Preliminary Development Plan.
