

MID-TOWN MASTER LAND USE VISION AND MOBILITY PLAN

COMMUNITY WORKSHOP #2

Please join us for the second public workshop to create the future vision for the Mid-Town area in Yucca Valley. Mid-Town is the heart of Yucca Valley, both from a geographical standpoint and with the Government and Community Center located here. Your input is crucial as we plan for future development and public improvements in this area.

The purpose of Workshop #2 is to present the Draft Mid-Town Master Land Use Vision and Mobility Plan, which was prepared based on community input received at the first workshop. The Plan includes land use, urban design, mobility, and open space recommendations, as well as implementation strategies for revitalization of the study area. At the workshop, participants will have the opportunity to review and comment on the recommendations of the Plan prior to its presentation to the Town Council.

Your participation is important to creating a viable and successful plan for the area. Be a part of this collaborative planning process!

For more information about the Mid-Town Master Land Use Vision and Mobility Plan, please contact Shane Stueckle, Deputy Town Manager, at (760) 369-6575, sstueckle@yucca-valley.org.
