a. **Intent**

It is the intent of this section to establish criteria for those signs used to identify public facilities that are either public service integrated and Town owned or acknowledged through joint partnership agreements and institutional uses.

Public and institutional facilities signs play an important role in guiding and directing citizens and visitors to public and institutional facilities within the Town. Additionally, it is important with current sign issues on SR62 and on local roads that the installation of directional signs does not create additional sign clutter following installation. It is the intent of this section to establish guidelines for primary Town owned and operated public facilities and institutional facilities. Prior to consideration of approval for installation of the directional signs, the Traffic Commission and Town Council shall carefully consider the use of the public facility and institutional facility and the need for directional signing both along the state highway and/or on local roads.

b. **Justification:** A Directional Sign for the purposes of identifying site location is warranted when any of the following facility criteria are met:

1. The facility is public service integrated, i.e. official Federal, State, County of San Bernardino, Town of Yucca Valley facilities, as well as regionally and community significant park facilities, and institutional facility.
2. The facility is owned or operated by the Town of Yucca Valley.

  - B. Sign shape shall be rectangular with a maximum horizontal length of 36 inches and a maximum vertical length of 24 inches.
  - C. Sign color shall be a blue reflective background with reflective white lettering and symbol. Public park identification signs shall be the Federal Standard of brown background with reflective white lettering.
  - D. Sign post shall have "break-away" capability and be either a singular square steel tube, steel u-post or wooden material.

- E. Sign height, once installed, shall not exceed 80 inches and shall be a minimum of 48 inches high.
- d. **Location:**
- 1. Signs installed along State Highways:
    - A. All signs proposed along State Highways shall conform to the installation requirements pursuant to the CalTrans *Traffic Manual*.
