

APPENDIX A

APPENDIX A: LAND INVENTORY

Vacant land is the Town of Yucca Valley’s primary resource for new housing opportunities during the 2014–2021 planning period. The land inventory for Housing Element only includes vacant sites that are located in the first phase of sewer service to encourage housing construction in that area. The affordability levels shown relate to expected affordability levels based on allowable densities and product types.

As required by state law, a parcel-specific land inventory and maps are provided. The development opportunities in the land inventory exceed the Town’s Regional Housing Needs Assessment of 930 units divided into income categories. This surplus protects the community from unintentionally having a shortfall of sites to meet the Regional Housing Needs Assessment at any time during the 8 year planning period.

Land Inventory Total					1,116	2,054	2,250	5,420
RHNA					358	172	400	930
Surplus					758	1,882	1,850	4,490

Note: The Old Town Specific Plan establishes a maximum number of units and maximum density per area (OTCR, OTIC, and OTMU). Although the allowable densities on the vacant sites shown can accommodate more units than the maximum, the land inventory only assumes the maximum number of units that is allowed in the Old Town Specific Plan.
