VARIANCE FINDINGS

Please respond to each question in as much detail as you possibly can.
(Attach additional pages if necessary)

- 1) Will the granting of this variance be detrimental to other properties or land uses in the area or substantially interfere with the present or future ability to use solar energy systems?

Absolutely NOT

- 2) Are there exceptional or extraordinary circumstances or conditions applicable to the property or to the intended use that do not apply to other properties in the same district or vicinity?

Yes. All other properties to the east, beginning with lot #58 (54635 Navajo Trail) are flat or slightly upsloping, & therefore are not adversely affected by the 50' setback. But the topography at my lot #59 (54615 Navajo Trail) & all of those lots to the west, slope down from the street (#) & makes construction cost punitively expensive, except if we were in Beverly Hills.

- 3) Will the strict application of the land use district regulations deprive such property of privileges enjoyed by other properties in the vicinity or in the same land use district?

Yes. Directly across the street, on the north side of Navajo Trail, the front yard setback is not 50', but rather twenty-five (25) feet. This innocuous strip of Navajo Trail, located 1/4 mile south of Hwy 62, merely spans 1/4 mile in either direction east or west of Pinon Tbn. leading to a deadend. Consequently, does this 1/2 mile of 50' setback on the south side of Navajo Trail serve a purpose?

- 4) Is the variance request in conformance with the objectives, policies, and programs specified in the General Plan and any applicable plan?

Yes
