

MULTI-FAMILY FOOD SCRAP COLLECTION

GOT FOOD SCRAPS? WE WANT THEM!

The Organics Program is here. Residents help us divert food waste from our landfills and help the City and the State of California meet its SB 1383 Climate Goals. By recycling your food scraps, you are reducing waste and creating compost - a double win! Recycling food scraps into compost captures nutrients, energy, and returns them to our environment.

WHERE IS MY ORGANICS COLLECTION LOCATED?

Please visit your nearest trash and recycling enclosure.

WHY RECYCLE FOOD SCRAPS?

California's SB 1383 Regulation requires Cities to provide a communitywide organic recycling program. Food waste is one of the largest components of trash sent to landfills. However, food waste is not trash but rather a valuable resource turned into useful compost.
